Task: Create a portfolio to highlight your efforts in **Term Three** using a Corel Presentations slide show. Your portfolio should include your self-reflections (your thoughts) about units of study, best work and highlights of the term. Include plenty of photos, graphics and special effects to add interest. It is very important that you evaluate each topic and/or your performance (e.g. P.M.I.) **Please date each page!** See the attached evaluation so you know how your slide show will be marked

- A title page that states, **"Portfolio of ... Name"** (Copied from your Term One portfolio)

- A **Table of Contents**, listing all the pages (and ordering) of your portfolio

- A biography page that states, **"All About Me"** (Copied from your Term One portfolio)

- Math Unit of Choice

- V.I.P. Unit with Officer Tom (March)

- Best art

- Wolf Unit (April)

- Outdoor Survival Day (March)

- Our Class Play

- Any other topics you would like to include

- **Your last page must be a summary of the term and the year**

When you are finished, have a few people look over your portfolio, especially for spelling and grammar errors. Evaluate yourself using the evaluation form then have Mr. Neeb look at your slide show. After Mr. Neeb looks at your portfolio and assigns a grade, he will help fix up any other spelling mistakes. Lastly, you will save your portfolio on your own private CD Rom, so you can take it home to share with your parents.
